Thank you for purchasing PLANET PCI Express Gigabit Fiber adapter. It is a 1000Mbps Ethernet adapter for x 1 PCI Express bus-compliant PCs. The Gigabit Fiber adapter provides a highly cost-effective solution to upgrading to the Gigabit network with your existing Ethernet infrastructures.

### 2. Hardware Installation

Step 1: Please turn off your PC.

- **Step 2:** Remove any metal decorations from your hands and wrists.
- Step 3: Remove the cover from your PC.
- **Step 4**: Locate an empty PCI Express slot and remove the corresponding back plate. Save the screw for use in Step 6.
- **Step 5:** Carefully insert the Gigabit Fiber Adapter into the chosen slot and press firmly with proper push to ensure it is fully seated in the slot.
- **Step 6:** Secure the Gigabit Fiber Adapter with the screw you saved in step 4.
- Step 7: Replace the PC cover.
- **Step 8:** Power on your PC and refer to next section to install driver.

- 3 -

 Please select "Include this location in the search" and then click "Browse" to specify the driver location to install. (Assume "E" is your CD-ROM drive, the driver can be found in E:\Drivers\WinXP). Click "Next" to continue.

3. WinXP will show this dialog box to prompt you the driver has not passed Windows logo testing, please click "Continue Anyway", then WinXP will start to install the driver.
