Utility Installation for Windows

The installation procedure for the Powerline Configuration utility will vary depending on which operating system you are using on your computer. The following procedure is for installation under Windows XP. Installation of other operating systems is similar.

1. Insert the CD into the CD-ROM drive to initiate the Autorun program. Once completed, a menu screen will appear.

2. Click on the **"Powerline Configuration Utility"** hyperlink in the **PL-702** field to start the installation. If the menu screen is not shown, you can start the installation as follows.
   - Click on **Start Menu/Run**.
   - Enter **"E:\Utility\setup.exe"** in the appeared box, where "E" is the letter of your CD-ROM drive.
   - Click on the **"OK"** button.

3. The utility will be installed on your computer and a new icon called **"Power Packet Utility"** will appear on your desktop.

Power Packet Utility

NOTE : This utility is only for Windows 2000, 2003, XP, Vista and Windows 7.

Further Configuration
